Preschool Play is essential in the development of a child. Struthers Recreation offers a complete solution of play systems, freestanding activities and research programming specific to the needs of children ages 2 to 5 years. Our products and programs inspire imagination, promote exploration and discovery, and encourage the development of physical and social skills.

Whether you are planning a new play area or improving an existing one, our project managers can help you find the perfect solution. We will explore all of the options available to help you plan your play space based on the needs of the children who will play there, and make sure everything fits your space and budget!

The Power of Play

These playstructures are perfect for children ages 2-5 years. They combine age appropriate activities that encourage discovery and enhance social-emotional communicative and motor skills development.
